## DETAILED ACTION

### *Restriction Requirement*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-11, 40-42, 70-89, drawn to Cordless/corded conversion under the title Transmitter and receiver at same station, classified in Class 455, subclass 74.1.

Group II. Claims 107-134, drawn to Including private cordless extension system under the title Radiotelephone system, classified in Class 379, subclass 462.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In this instant case, invention Group I has separate utility such as for call connection through a communications interface between communications port of base unit coupled to a wireless phone and a communication port of hard-wired telephone that does not relate to a processor automatically setting wireless communications unit to a new wireless phone user telephone number in response to receiving activation information through keypad. Further, setting wireless communications unit to a new wireless phone user telephone number is unique features. Each feature has its own patentability. See M.P.E.P. § 806.05(d).
3. Because these inventions are distinct for the reason given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated proper.
4. Examiner telephoned Mr. Samuel W. Ntiros on 07/20/04 and left a message. Examiner didn't receive any response. A provisional election was not made to prosecute the invention of any of the Groups I and II. Affirmation of an election must be made by applicant in responding to this Office action.

Art Unit: 2645

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. **Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).**
